Advanced Visualization

Advanced Visualization

Full-powered solutions

Vitrea software is a multi-modality advanced visualization system providing comprehensive applications in a variety of IT environments - from single site to multi-site standardization. Vitrea Advanced Visualization can help you standardize and consolidate your radiology IT footprint.

Multi-modality applications enhance diagnostic confidence across the organization. By providing access to advanced clinical tools, Vitrea software enables physicians to have meaningful interactions wherever they are.

Advanced imaging tools, such as in-suite 3D viewing and automated measurements, provide physicians with patient information anywhere, anytime. Radiologists can share images throughout their enterprise and collaborate in real-time with other physicians to help to achieve better patient outcomes.

Facilitates Improved Clinical Outcomes

- Powerful applications for 2D, 3D and 4D advanced visualization
- Best-in-class partner integrations
- Clinical solutions tailored to your organization

Increased Efficiency

- Consistent user interface and experience for all modalities
- Optimized for Canon Medical Systems imaging equipment and vendor neutral workflows
- Local and remote options for access anywhere
- Comprehensive clinical applications and multi-user deployments eliminate niche, standalone workstations

World-Class Service

- Software maintenance and support, including product updates and technical assistance
- Certified global support staff
- Customizable implementation, integration, adoption and education programs

Deployment Capabilities

Workstation

A one user, intuitive, multi-modality workstation increases productivity helping to optimize the time and resources needed to produce clinical results.

Extend

A multi-modality solution for three concurrent users (CCU) that increases your department workflow with a cost-effective alternative to enterprise integration, all with minimal IT impact.

Enterprise

An enterprise-wide advanced visualization solution that provides scalable thin client access to multi-modality clinical solutions anywhere in your medical enterprise.

■ Enterprise Single Server

Our latest Vitrea Advanced Visualization enterprise deployment, cost-effective and with minimal IT impact. Vitrea enterprise single server is a server-based solution for six concurrent users (CCU). It is available as a workgroup or domain deployment with PACS integration support for domain environments only.
